Institute of Surgical Excellence

vivariaesthetics.co.za

Vivari Aesthetics is a specialised cosmetic surgery clinic and hospital set within the tranquility of the luxurious Vivari Hotel and Spa in Johannesburg.

Vivari Aesthetics is a leading cosmetic surgical centre and training centre for plastic surgeons. The specialised cosmetic surgery facility has a state-of-the-art operating theatre with 5 post-surgical day beds.

It is a first in medical tourism with an aesthetic surgical centre situated on the same property as a 5-star boutique hotel. Not only does it provide a private and safe sanctuary for guests to recover from a cosmetic procedure, it is also in close proximity to historic and iconic tourist attractions and activities.

Vivari invests in cutting edge technology and is one of the few centres in Johannesburg that can boast having both VASER ultrasound technology for body shaping, and Renuvion Laser for skin tightening. The combination of these procedures works best for mommy makeovers.

Vivari Aesthetics works closely with Vivari Aftercare for patients who wish to have post surgical aftercare. Aftercare offers hyperbaric oxygen treatments to speed up healing, IV therapy to boost immunity and lymphatic drainage massage to reduce swelling. In addition Aftercare offers a comprehensive concierge medical service from pick up and drop off at the airport. International medical tourists benefit by staying in a safe, luxurious environment before their homeward journey.
